DRS Technologies Names SEA Wire and Cable, Inc as a Preferred Supplier

Madison/Huntsville, AL – May 24, 2007. Madison/Huntsville-based SEA Wire and Cable, Inc has been recognized as a preferred supplier for DRS Technologies. With the challenges necessary to support our fighting men and women in the field, DRS Technologies has selected SEA Wire and Cable, Inc as a strategic partner to ensure superior quality, delivery, and comprehensive supply chain management.

SEA Wire and Cable, Inc provides an extensive range of QPL products to support DRS Technology's worldwide operations. As the third largest manufacturer for the Aerospace and Defense Industries, it was necessary for DRS Technologies to rationalize its supplier base to guarantee it meets the demands of their military customers. "Our acknowledgment by DRS Technologies as a preferred supplier validates our consistent capital investments to leverage our dedicated organization with world class technology and systems," said Marty Clark, SEA Wire and Cable General Manager.

About SEA Wire and Cable, Inc

SEA Wire and Cable, Inc specializes in supplying wire, cable, tubing, termination sleeves, cable ties, EMI/RFI backshells, and other cable assemblies for the aerospace and military markets. The company is headquartered in Madison, AL with offices worldwide.
