### SEA Quality Clauses

- A: Review attached and/or included requirements for approval of applicable product, equipment, processes and procedures, if applicable.
- B: Supplier must have qualified personnel to perform set tasks, if applicable.
- C: Supplier's Quality Management System must be compliant to the applicable ISO 9000 standard and/or Mil-I-45208.
- D: If applicable, review attached and/or included process requirements, inspection instructions, or other applicable specs/drawings/technical data.
- E: Review and agree to the clauses and specifications on the purchase order prior to shipment.
- F: Supplier shall maintain Test data on file for a minimum of 7 years, if applicable.
- G: Any non conforming product must be approved by SEA before shipping. When pre-approved to ship nonconforming material, the acknowledgment letter must be included with the shipment and attached to the Packing slip.
- H: Any changes in product and/or process definitions require SEA approval in writing.
- I: SEA, SEA's customer, and/or any regulatory authorities have the right of access to all facilities involved in this order; including all applicable records.
- J: Supplier must flow down requirements and/or key characteristics in the purchasing documents to sub-tier suppliers as applicable
- K: All material must meet the requirements of DFAR 252.225-7014; regarding Specialty Metal. DFAR regulations can be accessed at the following Website:  
<http://www.acq.osd.mil/dpap/dars/dfarspgi/current/index.html>
- L: SEA's supplier is required to maintain a documented FOD program which assures that work is accomplished in a manner preventing foreign objects or materials from entering and remaining in deliverable items. Any non-conformances arising as a result of FOD issues will be fully investigated for potential impact.
